

Daily Research Report: IIm-ai-jobs-wroclaw

Temat: IIm-ai-jobs-wroclaw | Date: 2026-07-06 15:45 CEST | Status: Material update

Zakres sprawdzony

- [Just Join IT: Wrocław AI/ML board](#)
- [EPAM: Senior Agentic Automation Engineer](#)
- [Travelplanet.pl SA: AI Enablement Lead](#)
- [Vazco: AI Technical Lead](#)
- [Tooploox: Agentic Product Engineer](#)

Podsumowanie

NAJWAŻNIEJSZE

Today's sweep added a fresh Wrocław/remote cluster around Grid Dynamics and FOTC, while also correcting two tracked items: Tooploox's agentic product role is now expired and Vazco's salary render reverted from CHF back to EUR. EPAM and Travelplanet remain live, so the cluster is still active rather than collapsing into a pure churn day.

Najciekawsze nowe lub materialnie zmienione role

- [Just Join IT Wrocław AI board](#) now shows a new Grid Dynamics AI Engineer / Senior AI Engineer card for Wrocław hybrid, plus two new FOTC roles in scope: Senior Python + GenAI/ ML Engineer and Machine Learning Infrastructure Engineer.
- [FOTC Senior Python + GenAI/ ML Engineer](#) is currently listed with Undisclosed Salary and a stack centered on PyTorch, Claude Code, AWS Bedrock, LangChain, LangGraph and Python.
- [FOTC Machine Learning Infrastructure Engineer](#) is currently listed at 28 560-31 920 PLN/month with PyTorch, NumPy, GCP, BigQuery, Snowflake, Pandas and Python.
- [Vazco: AI Technical Lead](#) now renders 5 365-6 718 EUR net per month - B2B on the public page.
- [Tooploox: Agentic Product Engineer](#) now says Offer expired.
- [EPAM: Senior Agentic Automation Engineer](#) remains live and still centers on multi-agent systems, security, auditability and reusable templates.
- [Travelplanet.pl SA: AI Enablement Lead](#) remains live as a Wrocław remote enablement role with hands-on tooling, guardrails and internal AI learning paths.

Zmiany od poprzedniego przebiegu

- Added three new Wrocław/remote leads that were not in yesterday's report.
- Updated the tracked Vazco salary display because the public page reverted from CHF back to EUR.
- Marked the Tooploox agentic product role as expired.
- No material change in the broader Sii / Capgemini / Accenture cluster.

Risks

- Board-first roles can rotate quickly, so titles, salary bands and remote wording may change before the next run.
- The new Grid Dynamics and FOTC leads are still board-first signals; canonical employer pages are not yet confirmed.
- Tooploox already expired once on the board, so nearby role-family drift remains a real dedupe risk.

Rekomendowane działania

- Recheck the new Wrocław/remote board burst on the next run and prefer canonical employer pages if they appear.
- Keep Vazco under watch to see whether the EUR render persists.
- Do not carry the expired Tooploox agentic product card forward as a live lead.
