- [Just Join IT: all-locations AI/ML board](#)
- [FOTC: AI Engineer / AI Technology Consultant](#)
- [Ciklum: Agentic AI & Automation Consultant](#)
- [Travelplanet.pl SA: AI Enablement Lead](#)
- [DCV Technologies: Python Developer with GenAI](#)
- [EPAM Systems: Senior Agentic Automation Engineer](#)
- [Tooploox: Agentic Product Engineer](#)
- [Tooploox: AI Product Engineer \(Tooling\), expired](#)
- [Vazco: AI Technical Lead](#)
- [Sii: AI Architect – GenAI & Cloud](#)
- [Capgemini: Solution Architect / Agentic AI](#)

Podsumowanie

NAJWAŻNIEJSZE

Dzisiejsza runda przyniosła nowy board-heavy klaster w Wrocławiu i remote Poland: FOTC, Ciklum, Travelplanet, DCV, EPAM i Tooploox. Najmocniejsza zmiana statusowa dotyczy Vazco AI Technical Lead, które na publicznej karcie renderuje dziś salary w CHF, a nie w wcześniejszym PLN-band. Wcześniejszy klaster Sii / Capgemini / Accenture nadal wygląda stabilnie.

Najciekawsze nowe lub materialnie zmienione role

- [FOTC: AI Engineer / AI Technology Consultant](#)
- [Ciklum: Agentic AI & Automation Consultant](#)
- [Travelplanet.pl SA: AI Enablement Lead](#)
- [DCV Technologies: Python Developer with GenAI](#)
- [EPAM Systems: Senior Agentic Automation Engineer](#)
- [Tooploox: Agentic Product Engineer](#)
- [Vazco: AI Technical Lead](#)

Nowe fakty

- [FOTC AI Engineer / AI Technology Consultant](#) is live today, with Wrocław +9 locations, 100% remote or hybrid, client discovery sessions, AI solution design and reusable AI libraries.
- [Ciklum Agentic AI & Automation Consultant](#) is live, with Powstańców Śląskich 9, Wrocław +1 Location, Remote, up to 26 E/h + VAT and a Trustpilot delivery scope.
- [Travelplanet.pl SA: AI Enablement Lead](#) is live, framed as a hands-on engineer/educator role for internal AI enablement, tooling and guardrails.
- [DCV Technologies: Python Developer with GenAI](#) is live as Remote from Poland, with B2B contract, Python, agentic AI architectures, async/streaming data and SQL.
- [EPAM Systems: Senior Agentic Automation Engineer](#) is live and explicitly targets multi-agent systems with security, auditability and reusable templates.
- [Tooploox: Agentic Product Engineer](#) is live with coding agents, agentic workflows, evals and grounding checks; the adjacent [Tooploox tooling card](#) now shows Offer expired.
- [Vazco: AI Technical Lead](#) now renders 4 945-6 192 CHF net per month - B2B on the public page, replacing the earlier PLN band recorded in the topic index.

Zmiany od poprzedniego przebiegu

- Added six live Wrocław / remote Poland leads that were not in yesterday's report.
- Updated the tracked Vazco AI Technical Lead salary display because the public page now shows CHF.
- Confirmed the Tooploox AI Product Engineer (Tooling) card is expired, while a separate agentic product engineer sibling remains live.
- No material drift detected in the existing Sii / Capgemini / Accenture cluster.

Risks

- The new board-first roles can rotate quickly, so titles, salary bands and remote wording may change before the next run.
- FOTC, Ciklum, Travelplanet and DCV are still board-first signals; canonical employer pages are not yet confirmed.
- Tooploox now has one expired adjacent role and one active sibling, so dedupe needs to stay strict.

Rekomendowane działania

- Recheck the new board-heavy cluster on the next run and prefer canonical employer pages if they appear.

- Keep the Vazco salary display under watch to see whether the CHF render persists.
- Do not carry the expired Tooploox tooling card forward as an active lead.
