

Daily Research Report: Ilm-ai-jobs-wroclaw

Temat: Ilm-ai-jobs-wroclaw | Date: 2026-07-26 15:43 CEST | Status: Material update

Zakres sprawdzony

- Just Join IT Wrocław AI board
- Addepto careers - Data Scientist / ML Engineer
- Spyrosoft jobs
- AI/ML Engineer - Spyrosoft - No Fluff Jobs
- Principal AI Engineer - Link Group - No Fluff Jobs
- Senior AI Engineer - Simon-Kucher - No Fluff Jobs

Podsumowanie

NAJWAŻNIEJSZE

Today's sweep added a fresh, more salary-bearing cluster around Addepto, EPAM, Sii, Spyrosoft, Link Group and Simon-Kucher. The strongest signal is Addepto's canonical Data Scientist / ML Engineer page with Wrocław plus remote and public B2B bands, followed by a new Wrocław AI/ML Engineer at Spyrosoft, a remote Principal AI Engineer at Link Group, and a remote Senior AI Engineer at Simon-Kucher. The Wrocław board also added new EPAM and Sii cards focused on MLOps and agentic automation.

Najciekawsze nowe lub materialnie zmienione role

1. Addepto - Data Scientist / ML Engineer

- Lokalizacja/remote: Wrocław + remote
- Wynagrodzenie: Mid 12 600-19 320 PLN B2B; Senior 19 320-25 200 PLN B2B; Lead/Principal 19 320-28 560 PLN B2B
- Fit LLM/AI: LLM, GenAI, RAG, Python, MLOps, semantic search, AI agents, consulting
- Dlaczego interesujące: canonical employer page with public bands and a broad production AI scope that is easy to re-check.
- Niepewność: board mirror can still split the family across multiple titles.
- Źródła: [Addepto careers](#) [Just Join IT Wrocław AI board](#)

2. Spyrosoft - AI/ML Engineer

- Lokalizacja/remote: Wrocław / hybrid
- Wynagrodzenie: 18 480-25 200 PLN B2B or 110-150 PLN/h
- Fit LLM/AI: AI/ML, Python, data science

-
- Dlaczego interesujące: public salary, Wrocław anchor and a clean employer-board match.
 - Niepewność: the same employer still rotates other remote AI roles quickly.
 - Źródła: [No Fluff Jobs - Spyrosoft AI/ML Engineer Spyrosoft jobs](#)

3. Link Group - Principal AI Engineer

- Lokalizacja/remote: Remote
- Wynagrodzenie: 25 200-30 240 PLN B2B or 150-180 PLN/h
- Fit LLM/AI: AI, system integration, cloud platform, AWS, Azure, Python, TDD, MLOps
- Dlaczego interesujące: strong remote production-AI signal with public compensation.
- Niepewność: board-to-board role families can drift or rename quickly.
- Źródła: [No Fluff Jobs - Principal AI Engineer](#)

4. Simon-Kucher - Senior AI Engineer

- Lokalizacja/remote: Remote
- Wynagrodzenie: 23 000-26 000 PLN
- Fit LLM/AI: production-grade internal AI apps, evaluation, observability, deployment
- Dlaczego interesujące: hands-on internal AI platform scope rather than a generic consulting role.
- Niepewność: remote role may change wording or expire without much notice.
- Źródła: [No Fluff Jobs - Senior AI Engineer](#)

5. EPAM Systems - Senior MLOps Engineer with ML/AI

- Lokalizacja/remote: Wrocław / hybrid
- Wynagrodzenie: Brak publicznych widełek
- Fit LLM/AI: AI/ML infrastructure, Azure DevOps, PowerShell, Terraform, SQL
- Dlaczego interesujące: adds an MLOps-heavy Wrocław card to the current board burst.
- Niepewność: board-first and location wording can drift.
- Źródła: [Just Join IT Wrocław AI board](#)

6. Sii - Senior Agentic Automation Engineer

- Lokalizacja/remote: Wrocław + remote
- Wynagrodzenie: Brak publicznych widełek
- Fit LLM/AI: multi-agent systems, RAG, vector stores, embeddings, semantic search, OpenTelemetry, gRPC, Python

- Dlaczego interesujące: strong agentic-automation signal with Wrocław presence and deep workflow tooling scope.
- Niepewność: board-first; status and salary can change quickly.
- Źródła: [Just Join IT Wrocław AI board](#)

Nowe fakty

- Addepto's official Data Scientist / ML Engineer page still shows Wrocław, remote work, and public B2B bands for Mid, Senior, and Lead/Principal levels, with scope that includes LLM, GenAI, RAG, Python, MLOps, and client-facing consulting.
- Just Join IT now surfaces a new Wrocław/remote Addepto AI Engineer (LLMs, Python) card and a Senior Data Scientist / ML Engineer card, which confirms the broader Addepto family is active on both the official page and the board.
- Just Join IT added Senior MLOps Engineer with ML/AI for EPAM in Wrocław hybrid and Senior Agentic Automation Engineer for Sii with multi-agent systems, RAG, vector stores, embeddings, semantic search, OpenTelemetry, gRPC, and Python.
- No Fluff Jobs now shows Spyrosoft AI/ML Engineer in Wrocław with 18 480-25 200 PLN B2B or 110-150 PLN/h, and Spyrosoft's own jobs page still lists remote AI delivery roles such as AI Consultant (GenAI) and Forward Deployed Engineer (OpenAI).
- No Fluff Jobs also shows Principal AI Engineer at Link Group remote with 25 200-30 240 PLN B2B or 150-180 PLN/h, plus Senior AI Engineer at Simon-Kucher remote with production-grade internal AI apps, evaluation, observability, and deployment.

Zmiany od poprzedniego przebiegu

- The previous report was mostly a board-first production-ML burst; today's run adds a more salary-bearing cluster with better canonical coverage.
- Addepto is now the cleanest repeatable signal in the topic because the official page keeps public pay bands and a Wrocław/remote scope while the board shows the related roles.
- EPAM and Sii added new Wrocław board cards, but those remain more mirror-driven than the direct employer pages.
- Remote Poland expanded with two stronger public pay signals: Link Group and Simon-Kucher.

Risks

- EPAM and Sii remain board-first here, so location wording and status can still drift quickly.
- Remote roles at Link Group and Simon-Kucher are strong signals, but they can still rename, expire, or change pay without much warning.
- Addepto now looks stable, but the board mirror may continue to split the family across multiple titles.

Rekomendowane działania

- Low-risk action applied: wrote the dated report, updated the topic index, and added a new backlog item for the July 26 cluster.
- Next run should re-check Addepto, EPAM, Sii, Spyrosoft, Link Group, and Simon-Kucher for expiry, salary drift, and canonical URL changes.
- Needs user input: none.
