

Daily Research Report: IIm-ai-jobs-wroclaw

Temat: IIm-ai-jobs-wroclaw | Date: 2026-08-12 21:05 CEST | Status: Material update

Zakres sprawdzony

- Pracuj.pl: AI, Wrocław
- Just Join IT Wrocław AI board
- Sii Poland AI careers
- Rigby: AI Assisted Engineer
- Grid Dynamics Wrocław AI listings
- ALTIMI Wrocław AI listings

Podsumowanie

NAJWAŻNIEJSZE

Today's sweep pushed the topic further toward platform engineering and AI-assisted delivery. The biggest material change is a broader Hiberus cluster on the Wrocław board, now spanning AI Platform Engineering, AI Process Automation, and AI & Automation roles. I also found fresh Wrocław hybrid signals from Rigby and Grid Dynamics, plus a new product-oriented ALTIMI ML role. Sii still appears live in the current public sources, but I did not see the previous Expires tomorrow cue in today's checks.

Top New Or Materially Changed Roles

1. HIBERUS POLAND SP. Z O.O. - Squad Lead – AI Platform Engineering

- Fit LLM/AI: Strong platform and automation fit with a clear AI engineering angle across the wider Hiberus cluster.
- Location: Wrocław, Stare Miasto / remote.
- Compensation: 25 200–35 280 zł netto (+ VAT) / mies.
- Why interesting: This is the clearest sign that Hiberus expanded from two AI cards into a broader AI Platform Engineering and AI Process Automation family.
- Uncertainty: Board titles are closely related and may shuffle across mirrors.
- Source: [Pracuj.pl AI Wrocław](#)

2. Rigby - AI Assisted Engineer

- Fit LLM/AI: Hands-on AI-assisted delivery role with an explicit AI-native operating model.

-
- Location: Wrocław / remote.
 - Compensation: 3 180,41 - 4 770,61 USD Net per month - B2B.
 - Why interesting: The page says one engineer can run a whole project, which makes this a strong signal for AI-augmented delivery maturity.
 - Uncertainty: Pay is shown in USD, so cross-source comparison is noisy.
 - Source: [Rigby AI Assisted Engineer](#)

3. Grid Dynamics Poland - Lead AI engineer

- Fit LLM/AI: Strong fit with Python, RAG, LLM and Cloud.
- Location: Wrocław / hybrid.
- Compensation: Undisclosed salary.
- Why interesting: This is a fresh Wrocław hybrid board signal from a company already showing up with other AI/ML roles.
- Uncertainty: No salary is public yet.
- Source: [Just Join IT Wrocław AI board](#)

4. Grid Dynamics Poland - Senior ML engineer

- Fit LLM/AI: ML systems role with GCP, MCP, Vertex AI and ELK Stack.
- Location: Wrocław / hybrid.
- Compensation: Undisclosed salary.
- Why interesting: The role suggests a broader ML platform layer, not just a one-off application feature.
- Uncertainty: Board-first title only, so the canonical page may still differ.
- Source: [Just Join IT Wrocław AI board](#)

5. ALTIMI - Senior Machine Learning (ML) Engineer (Product)

- Fit LLM/AI: Product engineering role with LLM, AI, Python, data engineering and MLOps.
- Location: Wrocław +4 / remote.
- Compensation: Undisclosed salary.
- Why interesting: ALTIMI adds a new product-oriented ML role to the Wrocław board tail.
- Uncertainty: Salary is not public and the board card is already time-limited.
- Source: [ALTIMI Wrocław AI board](#)

6. Sii Sp. z o.o. - Senior AI Engineer (f/m/x)

- Fit LLM/AI: Still a strong LLM, RAG and agentic AI fit on the public mirror.
- Location: Wrocław / multiple locations / hybrid.
- Compensation: Brak publicznych widełek.

- Why interesting: The role remains live, but the current sources do not repeat the previous near-expiry cue.
- Uncertainty: The board and official site can move independently, so the shelf life is still worth watching.

Nowe fakty

- Hiberus now shows a wider public Wrocław cluster on Pracuj.pl, including Squad Lead – AI Platform Engineering, Software Integration Engineer (AI Platform Engineering), AI Process Engineer / AI Scientist (AI Platform Engineering), Squad Lead – AI Process Automation, and Software Integration Engineer – AI & Automation, with salary bands ranging from 20 160 to 35 280 zł netto (+ VAT) / mies. and Wrocław, Stare Miasto as the base. Source: [Pracuj.pl AI Wrocław](#)
- Rigby posted a new AI Assisted Engineer role in Wrocław at Rynek 35, with Wrocław +1 Location, Remote, and 3 180,41 - 4 770,61 USD Net per month - B2B. The page frames the work as AI-native delivery where one engineer can run an entire project. Source: [Rigby AI Assisted Engineer](#)
- Grid Dynamics now shows fresh Wrocław hybrid AI/ML openings on the board: Lead AI engineer and Senior ML engineer. The lead role is tagged with Python, RAG, LLM, and Cloud; the ML role adds GCP, Model Context Protocol (MCP), Vertex AI, and ELK Stack. Source: [Just Join IT Wrocław AI board](#)
- ALTIMI surfaced a new Senior Machine Learning (ML) Engineer (Product) listing on the Wrocław board with 25d left, Undisclosed Salary, Wrocław +4 Locations, Remote, and a scope around Machine Learning, Product Engineering, LLM, AI, Python, Data Engineering, and MLOps. Source: [ALTIMI Wrocław AI board](#)
- Sii still appears live in the current public sources as Senior AI Engineer (f/m/x) for Wrocław, including the official Sii careers page and the Pracuj.pl mirror. The current checks did not repeat the earlier Expires tomorrow signal. Sources: [Sii careers AI index](#) and [Pracuj.pl AI Wrocław](#)

Zmiany od poprzedniego przebiegu

- Hiberus moved from a two-role signal to a broader AI Platform Engineering / AI Process Automation family on the Wrocław board.
- New Wrocław hybrid engineering signals appeared from Rigby and Grid Dynamics.
- ALTIMI added a new product-oriented ML role on the Wrocław board.
- Sii remains visible, but the current sources do not reproduce the prior near-expiry cue.

Risks

- Board-first titles can shift, split, or disappear between heartbeats.

-
- Salary currency and employment type still vary across board mirrors and employer pages, especially for Rigby and some Wrocław board cards.
 - Hiberus titles appear in multiple closely related variants, so deduplication should stay strict.

Rekomendowane działania

- Re-check Hiberus, Rigby, Grid Dynamics, and ALTIMI on the next heartbeat for expiry and salary drift.
- Keep Sii on watch, but only treat it as an expiry candidate if the board mirror shows that cue again.
- No proposal created.
